

OWNER'S MANUAL

WIFI CONFIGURATION

For wallmounted heatpumps

WI-FI MODULE INSTALLATION

Before installation, please confirm whether the purchased Wi-Fi module complies with your unit.

WARNING: Installation must be performed by qualified professionals. Otherwise, it may cause personal injury or damage. Do not turn the power on before finishing installation.

1. Open the panel of indoor unit as show below and unscrew the screw on the electric box cover.

NOTICE: Actual product may be different from above graphics, please refer to actual product.

2. Open the electric box cover and you can see the Wi-Fi connection wire.
The color of Wi-Fi connection wire is the same as the color of connection port in Wi-Fi module.

3. Remove the wire clip, pull out the Wi-Fi connection wire from the electric box and then connect it with the port in Wi-Fi module.

NOTICE: the Wi-Fi connection wire shall go through the wire groove, otherwise the electric box cannot be closed.

WI-FI MODULE INSTALLATION

4. Place the Wi-Fi module beside the electric box. After confirming the position, please fix the Wi-Fi module with screws.

NOTICE: the position of Wi-Fi module may be different for different from one model to another. See examples below:

Wi-Fi module

Support iOS7.0 and
above version

Android system
Support Android 4.4 and
above version

EWPE SMART APP OPERATION

Download and Installation

App Download Linkage

Scan the QR code or search "Ewpe Smart" in the application market to download and install it. When "Ewpe Smart" App is installed, register the account and add the device to achieve long-distance control and LAN control of smart home appliances.

For more information, please refer to "Help" in App.

NOTE:

To add your unit in the app, the Wi-Fi function must be activated on your unit.

To activate this function, follow these steps:

1. Turn off the unit.
2. Press the Wi-Fi button on the remote control until "WiFi" icon blinks on the remote control display. (If there is no Wi-Fi button on your remote control, press TURBO and MODE buttons simultaneously until "WIFI" icon blinks on the remote control display.)

You should be able to add your unit in the app.
